# CLOUDHOOD SELF-ORDER KIOSK

# BENEFITS OF CLOUDHOOD SELF-ORDER

## PLATFORM

### LOWER OVERHEAD

CLOUDHOOD Self-Order kiosks reduce employee overhead. Point of sale systems require trained cashier to operate it. Self-Order kiosks does not require any training. Because it does not require any employee training you can easily scale Self-Order kiosks to meet customer demands.

### LOWER LABOR COSTS

CLOUDHOOD Self-Order kiosks can effectively replace cashiers and order takers. You can fill new or reinforce existing positions by reassigning them to those positions without having to hire new employees.

### IMPROVED CUSTOMER SERVICE

CLOUDHOOD Self-Order kiosks handles much if not all of order taking, so front line staffs are freed up to engage the guests to focus on the customer experience.

### IMPROVED EFFICIENCY

CLOUDHOOD Self-Order kiosks can handle the order taking 24 hours a day 7 days a week 365 days a year. You can even make the Self-Order kiosks as the only order option and reallocate employees to other responsibilities.

### CONSISTENT ORDER

Since customers enter their own order, customers get what they want. The problem of cashiers entering the wrong order due to miscommunication is eliminated.

### REDUCE FOOD WASTE

Making the customer's order wrong increases food waste and cut into profits. Miscommunication between order taker and customer is the biggest contributing factor in making the order wrong. Prevent food waste and unwanted profit decline with Self-Order kiosks.

### INCREASED REVENUE

POSNP Self-Order kiosks are equipped with marketing, upsell, and suggestive selling capabilities. These functions can effortlessly increase average ticket value without additional investments.

### MARKETING & DATA

Information is really powerful. Self-Order kiosks collects and store all sales data down to modifiers. You can track down what customers buying and not buying. With insights gained from the data analysis you can better allocate employees, decide what menus to keep or remove, and make smart purchasing decisions.
